# Subject Index

Canadian Journal of Soil Science, Volume 86, 2006

- Acrylic boxes  
collecting large soil monoliths, 885
- Aeration, active, passive  
composting of beef cattle feedlot manure, 783
- Agriculture  
measuring greenhouse gas emissions from agriculture, 355
- Agroecosystem  
measurements of SOC stock change in agroecosystems, 465  
net greenhouse gases from whole farms, 401
- Alfalfa  
manure application on forage soils, 119
- Alisols  
soil diversity in Sierra sur de Oaxaca, Mexico, 61
- Amino sugar  
response of ISNT to dairy amendments, 655
- Ammonium oxalate  
magnetic susceptibility of Iranian soils, 97
- Ammonium, non-exchangeable  
soil N supply and its utilization by wheat, 483
- Apple  
apple response to K sources applied by fertigation, 749
- Ash  
estimating the C density of organic soils, 295
- Aspen  
hydrothermal conditions in boreal forest soils, 203
- Astragalus raddei*  
traction effect lateral roots Gavan Iran, 493
- Barley  
tillage and liquid swine manure for a soybean-barley rotation, 741
- Biomass  
carbon stocks along forested peatland margins, 321  
soil respiration in hybrid poplar plantations, 257
- Biosolids  
biosolids recycling, 613
- Biosolids chemical marker  
caffeine biodegradation in soil, 533
- Biosolids organic contaminant  
caffeine biodegradation in soil, 533
- Bitter pit  
apple response to K sources applied by fertigation, 749
- Black spruce  
hydrothermal conditions in boreal forest soils, 203  
soil oxygen within boreal forests, 1
- Bulk density  
estimating the C density of organic soils, 295
- By-product  
utilization of potato by-products, 621
- Caffeine biodegradation  
caffeine biodegradation in soil, 533
- Calcareous  
magnetic susceptibility of Iranian soils, 97
- Calcium  
apple response to K sources applied by fertigation, 749
- Calibration method  
modeling soil water with RZWQM, 675
- Cambisol  
soil diversity in Sierra sur de Oaxaca, Mexico, 61
- Camera, high-resolution digital  
remotely predicting soil organic matter content, 573
- Carbon  
application of EFIMOD 2 to jack pine along the BFTCS, 171
- Carbon-13  
decomposition, lignin and  $\delta^{13}\text{C}$ , 235
- Carbon accumulation  
C accumulation in peatlands, Northwest Territories, Canada, 305
- Carbon change, soil organic  
measurements of SOC stock change in agroecosystems, 465  
monitoring soil carbon change, 451
- Carbon cycle  
climate change and forested peatlands, 269
- Carbon density  
estimating the C density of organic soils, 295
- Carbon dioxide  
CO<sub>2</sub> emissions from a Vertisol under pasture, 779  
net greenhouse gases from whole farms, 401  
standards for measuring greenhouse gas fluxes using flux towers, 373
- Carbon dynamics  
role of fungi in carbon dynamics in peatlands, 281
- Carbon, extractable  
soil extractable organic C after manure application, 851
- Carbon flux  
CO<sub>2</sub> emissions from a Vertisol under pasture, 779
- Carbon input  
modeling SOC stock change, 419
- Carbon, labile  
effect of temperature on soil organic matter decomposition, 247
- Carbon, soil organic  
CO<sub>2</sub> emissions from a Vertisol under pasture, 779  
effect of temperature on soil organic matter decomposition, 247  
future soil carbon changes in European mineral forest soils, 159  
management and soil C in a Gray Luvisol, 141  
modeling SOC stock change, 419  
soil extractable organic C after manure application, 851  
soil properties and 2,4-D sorption, 89
- Carbon sequestration  
Canadian agricultural land-use and land management data, 431  
soil respiration in hybrid poplar plantations, 257
- Carbon stock  
carbon stocks along forested peatland margins, 321  
history of a boreal pond, 335
- Carbon stock modeling framework  
modeling carbon sequestration in forest management, 219
- Carbon storage  
CO<sub>2</sub> emissions from a Vertisol under pasture, 779

- Carbonate  
soil properties and 2,4-D sorption, 89
- Cation exchange capacity  
CEC to determine lime requirement, 133  
exchangeable  $H^+$  in boreal shield soils, 513
- Cattle  
manure application on forage soils, 119  
measuring greenhouse gas emissions from agriculture, 355  
utilization of potato by-products, 621
- Cattle manure  
composting of beef cattle feedlot manure, 783  
soil extractable organic C after manure application, 851
- CENTURY  
modeling SOC stock change, 419
- Cesium-137  
soil erosion estimates using  $^{137}Cs$ , 77
- Chamber  
measuring greenhouse gas emissions from agriculture, 355
- Chloride  
apple response to K sources applied by fertigation, 749
- Chronosequence  
soil diversity in Sierra sur de Oaxaca, Mexico, 61
- Citrate dithionite  
magnetic susceptibility of Iranian soils, 97
- Clay  
management and soil C in a Gray Luvisol, 141
- Clay belt  
soil oxygen within boreal forests, 1
- Clay, heavy  
trifluralin on wind-eroded sediment, 545
- Climate change  
future soil carbon changes in European mineral forest soils, 159  
net greenhouse gases from whole farms, 401  
soil carbon cycle model in three Canadian forest types, 187  
soil supply and nutrient demand, 665
- Compost  
composting of beef cattle feedlot manure, 783  
manure composting, 597
- response of ISNT to dairy amendments, 655  
seafood processing wastes as crop nutrient sources, 631
- Conservation tillage  
K release from crop residues, 473  
nutrient stratification under zero tillage, 767
- Contamination  
pédologie et sédimentologie des sols alluviaux et paléosols, 813
- Conversion models  
soil erosion estimates using  $^{137}Cs$ , 77
- Core, soil, intact  
collecting large soil monoliths, 885
- Corn  
agri-environmental soil phosphorus saturation index, 897
- Crested wheatgrass  
effect of crop rotations on soil nitrate in semiarid prairies, 109
- Crop management, site-specific  
topography and N fertilization of wheat, 729
- Crop nutrients  
seafood processing wastes as crop nutrient sources, 631
- Crop residue  
N release from crop residues, 11
- Crop residue quality  
K release from crop residues, 473
- Crop rotation  
K release from crop residues, 473  
N release from crop residues, 11  
nutrient stratification under zero tillage, 767
- Cropping frequency  
cropping frequency, crop type and fertilizer on nitrate leached, 701  
effect of crop rotations on soil nitrate in semiarid prairies, 109
- Cropping systems  
manure composting, 597
- 2,4-D  
soil properties and 2,4-D sorption, 89
- Dairy manure  
soil extractable organic C after manure application, 851
- Data integration  
Canadian agricultural land-use and land management data, 431
- Decomposition  
decomposition, lignin and  $\delta^{13}C$ , 235
- Depth, soil  
soil properties and 2,4-D sorption, 89
- Detrital peat  
history of a boreal pond, 335
- Disturbance, soil  
modeling SOC stock change, 419
- Diversity  
role of fungi in carbon dynamics in peatlands, 281
- Drainage  
soil water budget estimation, 47
- Drainage, engineered  
salinity control with windbreaks and drainage, 555
- Ecology, soil  
biosolids recycling, 613
- EFIMOD 2  
application of EFIMOD 2 to jack pine along the BFTCS, 171
- Engineered drainage  
salinity control with windbreaks and drainage, 555
- Erosion rate  
soil erosion estimates using  $^{137}Cs$ , 77
- Erosion, wind  
trifluralin on wind-eroded sediment, 545
- Escherichia coli*  
*E. coli* persistence in soil, 841
- Europe  
future soil carbon changes in European mineral forest soils, 159
- Evapotranspiration  
climate change, water demand and supply in the Okanagan Basin, 921
- Evapotranspiration, potential  
estimating actual evapotranspiration, 757
- Exchangeable  $H^+$   
exchangeable  $H^+$  in boreal shield soils, 513
- Experimental design  
measurements of SOC stock change in agroecosystems, 465  
monitoring soil carbon change, 451
- Extraction method  
method for extracting petroleum hydrocarbons, 725
- Fall rye  
cropping frequency, crop type and fertilizer on nitrate leached, 701
- Feather meal  
nutrient supply from organic amendments, 21
- Fertility classification, soil  
agri-environmental soil phosphorus saturation index, 897

- Fertilizer P requirement model
  - agri-environmental soil phosphorus saturation index, 897
- FH and Podzolic B horizons
  - exchangeable H<sup>+</sup> in boreal shield soils, 513
- Filter strips, vegetated
  - runoff P retention in vegetated field margins, 871
- Fire
  - exchangeable H<sup>+</sup> in boreal shield soils, 513
- Flax
  - cropping frequency, crop type and fertilizer on nitrate leached, 701
- Flow injection analysis
  - hot-KCl mineralizable-N index, 911
- Foliar
  - wheat protein response to in-crop N fertilizer, 565
- Forest
  - climate change and forested peatlands, 269
  - forest organic matter composition, 35
  - modeling carbon sequestration in forest management, 219
- Forest, boreal
  - exchangeable H<sup>+</sup> in boreal shield soils, 513
  - history of a boreal pond, 335
  - hydrothermal conditions in boreal forest soils, 203
  - soil oxygen within boreal forests, 1
  - soil respiration in hybrid poplar plantations, 257
- Forest composition
  - effect of temperature on soil organic matter decomposition, 247
- Forest floor
  - soil oxygen within boreal forests, 1
- Forest management
  - future soil carbon changes in European mineral forest soils, 159
- Forest soil
  - application of EFIMOD 2 to jack pine along the BFTCS, 171
  - future soil carbon changes in European mineral forest soils, 159
- Forest type
  - effect of temperature on soil organic matter decomposition, 247
- Frequency dependence
  - magnetic susceptibility of Iranian soils, 97
- Frost penetration
  - hydrothermal conditions in boreal forest soils, 203
